Community-Based Models for Black Mental Health:

Black Psychology as a Professional Gateway Project

-Leadership Cohort-

- ▶ Become a part of a select group of healers by participating in a dynamic 7-month learning process that includes five-workshops on Black Psychology and the field of Public Mental Health.
- ▶ Cohort members will have an opportunity to learn about Black/African Psychology, share existing knowledge and wisdom, and co-create a 1-day symposium for the broader Bay Area community.
- ▶ Cohort members will receive a stipend and a Certificate of Completion

-Project Goals-

- ▶ Reduce Mental Health Stigma
- ▶ Encourage People of African descent to pursue careers in Psychology/Mental Health
- ▶ Increase Knowledge and Application of Black/African Psychology
- ▶ Expand Mental Health Workers to include Community Healers, Artists, Faith Leaders and Family Members
- ▶ Provide Leadership Opportunities
- ▶ Create a Community of Healing
